

**POOLBIKING**  
**BARCELONA®**

the water wellness  
**experience**

POOLBIKE was born with the idea of becoming the best manufacturer of aquatic fitness machines. Thanks to a committed team we achieved our challenges; we have the most advanced range of machines.

We are present in the five continents and our goal is to keep improving to consolidate our business and to be a benchmark company in the sector.

We work closely with doctors, physical therapists, sports men and professionals; and thanks to them we develop the best biomechanics applied to water characteristics and we get the best results in rehabilitation and sports enhancement.

POOLBIKE has three divisions: Fitness, Hotels and Rehabilitation. We specifically design each machine for each sector. The result is a suitable range for each customer: fitness centers, rehabilitation centers, hotels and SPA.

**Our commitment with the society encourages us to work for the people's well-being.**

## fitness

HYDROBIKE and AQUABIKING innovation. Make the most of your pool with the success of the fitness rooms, an idea that many clubs are already implementing. It's a guaranteed success thanks to the lack of equipment maintenance and the use and exploitation of the most expensive area of the center.

## hotels

Implant the sport as a source of health in the SPA areas is trending on lodging. The SPA-GYM-CORNER is a concept of water as gym. Our machines are used with bare feet.

## reeducation

A team of doctors, physical therapists and technical personnel in biomechanics collaborates in the development of our machines. The resistance and weightlessness of the water are perfect elements for the rehabilitation.

## Designed and manufactured in Barcelona

Our origins are in Barcelona, Mediterranean city known worldwide for our entrepreneurial spirit, a city linked to the sea, sport and industrial design, on this basis we manufacture our bikes entirely in Barcelona, quality made in Barcelona.

**9** YEARS  
MAKING  
BIKES  
ALL ARE STILL RUNNING

From our beginnings just build bikes designed and tested for heavy use, our customers are demanding quality and value; this is our only way, making the best water bike in the sector.

AISI 316L stainless steel sealed and shielded steel bearings, CE certified origin, entirely manufactured in Barcelona, modular design shared by all models to unify spare parts.

The brand that covers the product range with F.P.R. and the water Fitness activities carried out with these products.

POOLBIKING version, high intensity and high caloric exercise, suitable for people used to physical exercise.

It is a new concept of POOLBIKING sessions adapted to the needs of the resort hotels where customers are looking for sports, entertainment and relaxation in an environment of sun and water, these sessions are adapted to the autochthonous music of the area and customers are usually people any age and in many cases families.

The brand that includes the use of the treadmill in the water and the aquatic activity performed with the machine.

Aquatic gym that combines at least the use of three POOLBIKING machines. Get PREMIUM results at a LOW COST.

## Comfort pool

COMFORT POOL is a design protocol based on ergonomics, biomechanics and ease of use. This protocol has been designed by a medical team, a sports team and the design department of POOLBIKE.

We take special attention to those parts of the product that are in contact with the user, such as the pedals, the saddle, the structure and the closures. We follow User Centered Design criteria. Taking into account these parts it's very important to us because they are the keys of our product's success.

All POOLTREKKING and POOLBIKING machines are perfectly adapted to any user regardless of their physical condition, their body structure and age.

## Poolbiking Pedal

**Pedal tested biologically**  
Class VI 6.6.1 ISO  
10993-5/10/11  
Made in France

POOLBIKING patented pedals are the result of a full research project to provide the best pedal of market.

Buoyancy system to hold the pedals horizontally in the water.

Soft base for user comfort.

Hydrodynamic progressively according to the pedaling speed.

Built in technopolymer for medical, antiallergic and antibacterial use.

Granular base improves lymphatic drainage.

### PROGRESSIVE RESISTANCE

**TO MORE SPEED  
MORE RESISTANCE**

**ONE PLUS**  
Horizontal  
adjustment  
saddle

**ONE**

## Poolbiking ONE/ONE PLUS

ONE; Professional's basic model of our range of equipment. Best quality-price relationship. Stand up its elegant design and ease of use. We incorporate F.P.R. (Full progressive Resistance). POOLBIKING has been chosen by many professionals from different sectors: fitness centers, rehabilitation centers, hotels and resorts, wellness centers, clubs for post-recovery or post-traumatic programs under the supervision of a specialized medical team.

ONE PLUS; Same qualities as model ONE but it adds seat horizontal regulation. It is very useful on back pain, rehabilitation exercises and pregnant woman.

Design, comfort and performance made in Barcelona.  
**Wellness into the water!**

## Poolbiking Veracruz

POOLBIKING VERACRUZ is an excellent tool for cardiovascular exercise; joints do not receive any pressure, which avoids injuries. The calories consumption is higher than 500 kcal/h. The continuous resistance of the water increases the muscular work.

Model designed for professional insensitive training, reinforced main structure, this model is able to be used by taller people, more than 1,90 meters and more than 90 kg weight. We provide the cycle with water can for the user hydrate.

Armored stainless gears of large diameter, prepared for workload and high speed, the only way to achieve a smooth and comfortable pedaling over time.

## Poolbiking Evolution

A medical team has developed POOLBIKING EVOLUTION under the strictest biomechanical premises to become the first reference in aquatic rehabilitation equipment.

Same qualities as model VERACRUZ adding seat horizontal regulation very useful in medical rehab and conditioning.

Large diameter silenblocks made of polymer, resistant to all kinds of chemicals and memory effect. Its base of 65 mm. Guarantees the stability of the bike.

## Poolbiking Veracruz

POOLBIKING VERACRUZ is an excellent tool for cardiovascular exercise; joints do not receive any pressure, which avoids injuries. The calories consumption is higher than 500 kcal/h. The continuous resistance of the water increases the muscular work.

Model designed for professional insensitive training, reinforced main structure, this model is able to be used by taller people, more than 1,90 meters and more than 90 kg weight. We provide the cycle with water can for the user hydrate.

Armored stainless gears of large diameter, prepared for workload and high speed, the only way to achieve a smooth and comfortable pedaling over time.

## Poolbiking Evolution

Same qualities as model VERACRUZ adding seat horizontal regulation very useful in medical rehab and conditioning.

Large diameter silenblocks made of polymer, resistant to all kinds of chemicals and memory effect. Its base of 65 mm. Guarantees the stability of the bike.

## Poolbiking Paris

Suitable model for intensive sessions of POOLBIKING or AQUABIKE. With an adjustable resistance system without regulation: FPR

This bike incorporates a system of blades with progressive resistance, which support the pedal's resistance patented FPR POOLBIKING (FULL PROGRESSIVE RESISTANCE). POOLBIKING All models are designed for people between 1,55 and 2,10 meters in height. Bottle holder and bottle for a proper user hydration.

Bottle holder and bottle for a proper user hydration.

Ultra blades are protected to prevent the user to get shocks, following the geometry of COMFORT POOL.

**Pedal tested biologically**  
Class VI 6.6.1 ISO  
10993-5/10/11  
Made in France

## Poolbiking Tenerife

It's the new bike of POOLBIKING, specially conceived for resort hotels. It is a solid bike, easy to use, light-weight and silent transportation, prepared specifically for seawater. It incorporates an advertising plate or front banner that allows the hotel's advertising while being visible in all the photos or videos that customers make while the fitness activity takes place. We incorporate an ultra noiseless wheel to let its ease transportation without disturb customers that are sunbathing at swimming pool.

Design and comfort, made in Barcelona

## Poolbiking Ibiza

IBIZA POOLBIKING, the first bike that goes to the beach, adding the benefits of seawater. A luxury of sensations available to all.

Bicycle for exclusive use on the beach. It includes special wheels for easy transport and support platforms for the sand. It has the basic features of the VERACRUZ model for professional use.

## Poolbiking Berlin

Perfect bike model designed for spas, hotels and water parks that want to avoid vandalism. This model is anchored to the bottom of the swimming pool and it has a safety system, which prevents from removing the tube of the saddle and handlebar of the bike.

Sesión/Session 20 minutes

This model incorporates a banner with different types of training sessions in different languages (SPANISH-ENGLISH, FRENCH-ENGLISH), as well as the name of the hotel.

## Poolbiking Orbital

It's the first elliptical training device with variable resistance built for professional use in pools.

Hydrodynamics and biomechanical research have allowed the conversion of water resistance into a continuous and progressive elliptical workout. The lack of weight in the water allows a full and free-of-pressure knees and joints movement.

## Poolbiking Acapulco

System of blockade that avoids the habitual balancing of other aquatic treadmills.

The POOLTREKKING ACAPULCO is designed for intensive use in swimming pools for group sessions. It can be used for personal training, professional fitness in general and rehabilitation. The future of pool group activities is definitely moving towards the use of aquatic treadmills. This activity is called POOLTREKKING.

IMPROVE YOUR PHYSICAL CONDITION IS EASY AS WALKING!

## Poolbiking Core

The water fitness revolution on a single machine. We joined CORE work, cardio and leg muscles strengthening.

POOLBIKING CORE exercise improves directly the body posture, it supports the lumbar zone, the body balance and it corrects bad posture produced by daily activities.

**Pedal tested biologically**  
Class VI 6.6.1 ISO  
10993-5/10/11  
Made in France

## Poolbiking Medical

It's the first model designed to walk and run inside of a swimming pool for a rehabilitation treatment. The interchangeable barriers allow placing them according to the user needs, in the front or at the sides.

**LOSE WEIGHT IN THE WATER**

## Pooltrekking MIAMI

Treadmill for professional use, bandwidth of 400mm, guaranteed durability and resistance like the rest of the professional range POOLBIKING and POOLTREKKING machines.

In this model there has been prioritized the utilization of the space, simplicity of use and assembly

It incorporates a manual of training distributed by priorities, rehabilitation, loss of weight and running advanced training.
